STAY IN TOUCH WITH THE INDUSTRY

Launched in 1968, Instrumentation Monthly examines all aspects of the instrumentation, test, measurement and control markets.

Instrumentation Monthly houses in-depth technical articles combined with application stories and the latest new products, giving specifiers, purchasers, and users of instrumentation equipment the knowledge they need to source the right product for their application.

Alongside the printed version of the magazine, the digital issue and the bi-weekly ENewsletters,

Instrumentation Monthly is further enhanced by the comprehensive website www.instrumentation.co.uk

Within the Instrumentation Monthly portfolio we also have the Directory and Instrumentation Live exhibition. The Directory and exhibition are promoted regularly within the magazine. Because of the varied and proven opportunities we have available within the Instrumentation Monthly brand, we can get your company in front of the right people at the right time, making us your perfect media partner.
